Tolerance of others					
Ability to cope with stress					
Commonsense					
Reliability					

Considerations

Living in College has many benefits, including academic assistance provided through the tutorial system, contact with other more senior students, the opportunity to live and work with students from all faculties and a rich and varied program of academic, cultural and sporting activities.

Students are generally selected on the basis of academic merit, commitment to academic study, willingness to participate in College life and individual need which is assessed in terms of distance from the University, the demands of the student's course, family arrangements and medical or other matters.

Please comment on the Applicant's readiness for University, their suitability for community living and any special circumstances, which you feel, should be noted in considering this candidate.
